TRIPLE TREES

Get the big wheel look you want without compromising handling or ride quality. Our forged billet triple tree's are engineered and tested to offer the best handling available when running larger diameter front wheels.

FRONT END COMPONENTS

The front end sets the tone for the rest of the motorcycle, start your Bagger build off right with our billet fork legs and boots. Available in multiple styles and configurations to keep your build looking proper no matter what style you prefer.

FRONT END

7 & 7 RAKED TRIPLE TREE FOR FLT MODELS

- ▶ 7° forged aluminum triple trees that offer the best handling available when using 23" front wheels on your FLT touring model
- ▶ Bolt-on installation, no frame modification necessary
- ▶ 7&7 triple tree offer 7" of trail when using 23" front wheels, 6-1/8" of trail when using 21" front wheels
- ▶ Triple trees are constructed from forged aluminum then CNC machined and finished in black anodize
- ▶ Each kit includes top and bottom tree, pressed in steel stem, lower fork bearing, hardware and travel limiters
- ▶ Batwing style fairings maintains factory position so headlight remains angled properly unlike other aftermarket kits which require additional brackets to correct headlight angle
- ▶ When using 23" front wheel on 98-13 Road Glide® models we recommend installing our fairing bracket to increase clearance (sold separately)
- ▶ Available for 97-13 & 14-up FLT Touring models

7 & 7 RAKED TREES

20-389 7° Raked Tree for 14-18 FLT \$659.95

20-379 7° Raked Tree for 97-13 FLT \$659.95

FAIRING MOUNT KITS

20-377 98-08 Road Glide® fairing mount kit \$189.95

20-376 09-13 Road Glide® fairing mount kit \$189.95

NOTE: No bracket needed for 15-18 Road Glide models

LEGENDS AXEO FRONT SUSPENSION KITS FOR 21" AND 23" FRONT WHEELS

- ▶ Arlen Ness is proud to offer Legend Suspensions AXEO front suspension kits specially designed for running 21" & 23" front wheels
- ▶ Designed for Ness 7&7 tree's, Legend AXEO fork cartridge upgrade offers the best handling available for 23" front wheels
- ▶ Dual mono-tube dual chambered damper cartridges with internal floating pistons in nitrogen chambers. Performance spring rates. 303 Stainless pre-load adjusters. Increases stability, cornering, and ride quality
- ▶ Eliminates bottoming out when using 21"/23" wheels
- ▶ Available for 09-13 FLT, 14-16 FLT & 17-up FLT

19-471 23" Kit, 09-13 FLT, 41mm \$874.95

19-473 23" Kit, 14-16 FLT, 49mm \$874.95

19-475 23" Kit, 17-18 FLT, 49mm \$874.95

19-472 21" Kit, 09-13 FLT, 41mm \$874.95

11-031

LOWERING KITS

- ▶ Front, rear, and complete lowering kits are available
- ▶ Front lowering kits consist of front fork dampers that range from a 1"-2½" drop
- ▶ Rear lowering kits are offered in fixed or adjustable drop depending on application
- ▶ Complete lowering kits include everything needed to drop the front and rear of the motorcycle, including a lowered kickstand
- ▶ All Ness kickstands included in complete lowering kits are constructed from forged steel

REAR LOWERING KITS

These billet aluminum blocks properly relocate your rear shocks 1" back from their stock position. This effectively lowers the rear of your FLT model by 1", giving a lower profile and the rider more control over the motorcycle with a lower center of gravity.

ADJUSTABLE REAR LOWERING KITS

These adjustable lowering kits for Softail® models allow you to customize the look and feel of the bike to the rider's preference. Once installed to the rear suspension you are able to adjust the rear height by 1" to 2½".

FRONT LOWERING KITS

Each fork damper is shorter than stock and specifically drilled to lower your motorcycle while retaining a factory quality ride. Ranging from 2"-2¾" drop, each fork damper is model specific and utilizes factory fork springs.

COMPLETE LOWERING KITS

Complete lowering kits include everything you need to lower your motorcycle correctly. Front fork dampers, rear lowering blocks or adjustable kits, and lowered kickstands are included in every kit. Lowering components in each kit will depend on application, FLT kits will be a fixed 1" drop while Softail® kits will have a 1"-2" adjustable drop.

COMPLETE LOWERING KITS

- ▶ Everything you need to lower the front and rear of most late model Harley-Davidsons®
- ▶ Specially designed fork dampers lower the front end without replacing factory springs
- ▶ Both kits for Softail® lower the front of FXST models by 2-1/2" and FLST models by 2" while the rear designs are adjustable to lower as much as desired
- ▶ Each kit includes 2 specially designed dampers, 2 adjustable rear shock adjusters, and a 1" shorter kickstand (fork oil not included)

17-031	07-13 FLT, except models w/ soft bags (excludes adjustable shock models)	\$249.95
17-026	89-99 Softail®, except Springer™ & Deuce™	\$199.95
17-025	00-06 Softail®, except Springer™ & Deuce™	\$179.95
17-032	07-17 Softail®, except Springer™, Deuce™, Rocker™ (except FXSB)	\$179.95

NOTE: Always check ground clearance and tire to fender clearance when installing these kits.

17-031 COMPLETE LOWERING KIT

FRONT LOWERING KITS

- ▶ Ness design simplifies lowering the front end of your bike
- ▶ Specially designed fork dampers are shortened and drilled in a strategic position to obtain factory ride quality
- ▶ Utilizes factory fork springs
- ▶ Each kit includes 2 complete damper assemblies
- ▶ Will not fit Springer™, Deuce™, 06-up FXD, or FXCW models

28-001	84-99 41 mm FXST & FLST except FXSB and Springer™ (2-1/2" lower)	\$59.95
28-002	00-14 41 mm FXST & FLST (2" Lower) 1997-2013 41 mm FLT except 02-06 FLT/FLHT (1-1/2" lower)	\$59.95

NOTE: Please check all clearances including front fender clearance with suspension travel bottomed out prior to riding your motorcycle.

28-001

28-002

REAR LOWERING KITS

- ▶ Drop the rear end of your bike for a sleek, low profile
- ▶ Visible kits finished in black or polished to match factory swingarm
- ▶ Kits available in adjustable or standard drop
- ▶ Adjustable kits lower from 1" - 2"
- ▶ Standard drop kit lower bikes approximately 1"
- ▶ Supplied with mounting hardware or designed to use factory hardware

ADJUSTABLE DROP

17-100	00-17 Softail® models	\$69.95

NOTE: With all lowering kits, check all clearances prior to riding your motorcycle.

CARBON COMPOSITE WRAPPER FENDERS

Designed to perfectly wrap the contour of your front wheel for a smooth and clean look that is anything from factory. Our available Carbon composite fenders are made from a blend of high strength composite materials wrapped in a layer of carbon fiber resulting in fenders as strong as steel but half the weight.

ALL-NEW STEEL FRONT FENDER LINE

Our full new line of steel front fenders are made in the USA using advanced CAD processes for the best fit and finish on the market. Each fender was fabricated by hand then digitally measured and reengineered in CAD for the custom hand made look that is manufactured perfectly every time. From our Pro Sport performance styled fender to the long and smooth Real Steel Rapper, Arlen Ness has the front fender area of your machine covered.

FRONT FENDERS

WRAPPER FRONT FENDERS

- ▶ Our Wrapper front fenders perfectly follow the contour of your 21", 23", or 26" front wheel
- ▶ Fenders are available in carbon fiber composite and standard composite materials
- ▶ Carbon composite fenders are constructed from a blend of composite materials with a layer of carbon fiber for fenders as strong as steel with less than half the weight
- ▶ Standard composite fenders are constructed from high quality fiber-glass materials that are cured in a computer controlled oven over a wide heat range for durability and strength
- ▶ Both composite style fenders are an average of 8 lbs lighter than most similar steel fenders, saving weight and improving gas mileage
- ▶ Available for FLT / FLST / FXST model

THE ORIGINAL

LOUVERED

PLAIN

ORIGINAL FAIRING KITS

- ▶ The fairing that started it all
- ▶ Universal design can be used on various applications
- ▶ Constructed of heavy ABS plastic while the windshield is made from smoked plexiglass.
- ▶ Each fairing kit includes: 1 fairing body, 1 smoked windshield, universal mounting brackets and windshield mounting screws

ORIGINAL FAIRING KITS

06-041	Ness plain fairing kit	\$224.95
06-043	Ness louvered fairing kit	\$224.95
06-087*	Ness wide-glide & custom mid-glide fairing kit	\$224.95

REPLACEMENT ACCESSORIES

06-047	Replacement smoked windshield	\$99.95
06-048	Custom headlight bracket	\$29.95
06-049	Replacement fastener kit	\$9.95

* Does NOT include brackets. 06-later FXDWG models require SKU# 06-087.

NOTE: When mounting fairing to 73-up H.D. Narrow Glide front ends, we suggest using our custom headlight bracket (06-048) which places the headlight in the correct position. Ness wide glide fairing kits (06-087) require fabrication of custom mounting brackets. Inverted front ends require fabrication of custom mounting brackets as well.

DIRECT BOLT-ON FAIRINGS FOR SPORTSTER® AND DYNA® MODELS

- ▶ The Original Arlen Ness fairing now available in a direct bolt-on kit for your Sportster or Dyna, no custom fabrication needed
- ▶ Fairing adds style and protection from the elements
- ▶ The fairing body is constructed from heavy ABS plastic, which is the same material used for OEM saddlebags. Windshield is smoked plexiglass
- ▶ Choose from paintable finish or gloss black coated ABS finish
- ▶ Available for 04-up Sportsters with 39mm forks and top mount headlight, 06-up Dyna models (Except FXDF & FXDWG), and 16-up Sportster 48 models.

BOB DRON FAIRING KIT

Constructed entirely from steel and hand finished to perfection. The Arlen Ness stretched gas tank brings an entirely new level of styling to the centerpiece of the motorcycle. The smooth flowing design and stretched profile provides full custom looks where it matters the most. Where others sacrifice function for style, our tanks offer the best legroom of any stretched aftermarket tank on the market while still holding 6 gallons of fuel so you can ride as the distance.

ARLEN NESS WINGED STRETCHED GAS TANK

Features:

- ▶ Our all-new stretched gas tank for 08-up touring models feature smooth flowing design that gives your Bagger the full custom look.
- ▶ Steel construction that is hand finished to perfection
- ▶ 6 gallon fuel capacity
- ▶ Offers the best leg clearance over any other aftermarket stretched tank on the market
- ▶ The use of a custom seat is required. Choose from Silhouette, Sorrento or Villain style seats
- ▶ Direct bolt on fitment, no modification required
- ▶ Gas tank includes steel gas tank, steel dash, rubber trim and all necessary hardware.
- ▶ 3 different seats are available: Silhouette, Villain and Sorrento

Fitment:

- ▶ Designed to fit 08-up FLT Touring models
- *Will not Road King models unless custom work is done to relocate factory speedometer

- ▶ Designed to fit 08-up Street Glide® and Road Glide® models (FLHX, FLHT, FLT, FLTR). Will not fit Road King® (FLHR models)
- ▶ Available in gloss black
- ▶ Add a custom Arlen Ness gas cap to compliment your new dash
- ▶ Will work with factory seat

FLOW DASH

04-112 08-18 FLT, Flow dash kit, gloss black \$189.95

FLOW DASH

SADDLEBAGS

AND REAR FENDERS

SADDLEBAGS

We set the standard for extended saddlebags back in the early 90's, we figured it was time to raise the bar again. For 2018, we offer a range of saddlebags from our 5" stretched Angled bags to our extreme stretch Down-N-Out bags that are 6" longer and 2" lower to upgrade the style of your Bagger. Each saddlebag in the Ness line features our tapered bottom for increased ground clearance when cornering so you can have the look without the hassle of dragging in the turns.

REAR FENDERS AND FENDER EXTENSIONS

Extending your rear fender goes hand in hand with adding stretched saddlebags; your stretched rear end just isn't complete without it. With that in mind we brought multiple options to the table when it comes to your rear fender. The Down-N-Out line has multiple complete replacement fender options as well as an all-new fender extension, while our Angled line keeps it simple with the Angled fender extension that stretches your rear fender at a fraction of the cost.

ANGLED SADDLEBAGS

- ▶ Arlen's angled cut design gives you the ultimate look while providing maximum cornering clearance.
- ▶ Each saddlebag is stretched 5" longer than stock to cover your muffler from front to back and provide a stretched look.
- ▶ These injected molded ABS saddlebags provide consistent quality, superior strength and rigidity. Perfect fit every time from a name you can trust.
- ▶ Saddlebags have cutouts for dual exhaust applications. For custom applications with single exhaust or no exhaust exits, block off plugs are available separately.
- ▶ Saddlebags are sold individually.
- ▶ Please order a right and left for each motorcycle (Sold individually)

ANGLED SADDLEBAGS

60-154 Angled Fender Extension

NOTE: please check fit and finish of bags, fender extension and block-off plugs prior to painting. Arlen Ness will not be responsible for any damage sustained to paint jobs.

DOWN-N-OUT STRETCHED SADDLEBAGS, COMPOSITE

- ▶ Down-N-Out Saddlebags are 6" longer and 2" lower than our original Big Bags for the most extreme stretch we offer
- ▶ Features a tapered bottom that provides a clean and original look while offering an additional 2" of ground clearance
- ▶ Each bag is constructed from high quality composite materials and hand placed fibers strategically located to provide the highest structural integrity possible while maintaining maximum strength to weight ratio
- ▶ Oven cured over a wide heat range to ensure quality and durability, each bag is fit and lid tested as well as put through a
- ▶ 14-point quality control process
- ▶ Accepts factory sized lids and hardware
- ▶ Bags are primed and finished in a super high quality polyester sanding primer that is ready for paint
- ▶ Available for 1993-2013 & 2014-2018 FLT touring models
- ▶ Choose from Dual, Single and No Exhaust outlet configurations
- ▶ Sold in pairs

FLT Side Covers

FLARE 5

The FLARE 5 represents the next level in motorcycle wheel design. Sculpted CNC features extend from the axle all the way to the outer edge of the rim lip. Its multi-piece design features a radial forged rim, forged hub covers, hidden cartridge hub and spoke mounted 14" rotors for a combo never before seen in the v-twin aftermarket. FLARE 5 is the first design in the Ness Multi-piece Premium wheel series.

- Precision machined from radial forged 6061-T6 aluminum for maximum road durability
- Structurally tested to meet or exceed DOT, JAS and TUV international load ratings
- Hidden hub design features a single piece cartridge type hub that includes both pre-set bearings
- Forged hub covers are specially designed to bring full 3D styling from the bearing in the hub to the outer edge of the rim lip
- Matching floating performance front 14" floating rotors & matching rear 11.5"/11.8" rotors are available

HIDDEN CARTRIDGE HUB FEATURES

- These billet aluminum wheel hub kits are designed to work exclusively with Arlen Ness forged aluminum rims
- Cartridge design hub features both wheel bearings pre-set in one hub for optimum radial and lateral runout accuracy
- Lightweight design provides form and function all while being hidden from view

FLARE 5

DRIFT

DRIFT

Utilizing our proprietary single piece hub and hub cover combination the DRIFT wheel brings directional CNC design from very center of the rim to the very edge of the lip to set your bike in motion even when its on the kickstand. The DRIFT is the second design in the Ness Multi-piece Premium wheel series.

- Precision machined from radial forged 6061-T6 aluminum for maximum road durability
- Structurally tested to meet or exceed DOT, JAS and TUV international load ratings
- Hidden hub design features a single piece cartridge type hub that includes both pre-set bearings
- Forged hub covers are specially designed to bring full 3D styling from the bearing in the hub to the outer edge of the rim lip
- Matching floating performance front 14" floating rotors & matching rear 11.5"/11.8" rotors are available

HIDDEN CARTRIDGE HUB FEATURES

- These billet aluminum wheel hub kits are designed to work exclusively with Arlen Ness forged aluminum rims
- Cartridge design hub features both wheel bearings pre-set in one hub for optimum radial and lateral runout accuracy
- Lightweight design provides form and function all while being hidden from view

7-VALVE

Clean 7 spoke design levels above the classic mag. Each one of the 7 spokes are tapered and feature sculpted sides with a cut out center for heavy styling that doesn't add weight to the motorcycle. To keep it consistent, we brought the same design philosophy to the rim lip where large pockets have been CNC machined between each in spoke to reduce as much weight as possible while adding bold styling. The 7 Valve looks good on any machine and is our best-priced option in the new wheel lineup.

- Precision machined from radial forged 6061-T6 aluminum for maximum road durability
- Structurally tested to meet or exceed DOT, JAS and TUV international load ratings
- Hidden hub design features a single piece cartridge type hub that includes both pre-set bearings
- Forged hub covers are specially designed to bring full 3D styling from the bearing in the hub to the outer edge of the rim lip
- Matching floating performance front 14" floating rotors & matching rear 11.5"/11.8" rotors are available

- These billet aluminum wheel hub kits are designed to work exclusively with Arlen Ness forged aluminum rims
- Cartridge design hub features both wheel bearings pre-set in one hub for optimum radial and lateral runout accuracy
- Lightweight design provides form and function all while being hidden from view

PROGROSS

Race inspired design with extreme attention to detail. Lightweight yet engineered to perform and handle anything the road wants to throw at you. Although the inspiration came from the racetrack it didn't mean we didn't spend countless hours sculpting each "spoke" to ensure it rode the fine line between race and luxury styling.

- Precision machined from radial forged 6061-T6 aluminum for maximum road durability
- Structurally tested to meet or exceed DOT, JAS and TUV international load ratings
- Hidden hub design features a single piece cartridge type hub that includes both pre-set bearings
- Forged hub covers are specially designed to bring full 3D styling from the bearing in the hub to the outer edge of the rim lip
- Matching floating performance front 14" floating rotors & matching rear 11.5"/11.8" rotors are available

HIDDEN CARTRIDGE HUB FEATURES

- These billet aluminum wheel hub kits are designed to work exclusively with Arlen Ness forged aluminum rims
- Cartridge design hub features both wheel bearings pre-set in one hub for optimum radial and lateral runout accuracy
- Lightweight design provides form and function all while being hidden from view

BIG BRAKE ROTOR KITS

Designed for the performance minded rider. Big Brake Rotor kits upgrade the style and performance of your factory or aftermarket wheels. These massive rotors maximize braking performance in both aggressive and normal riding conditions

JAGGED ROTORS

Factory sized versions of our performance big brake kits; each Jagged rotor improves braking response and performance while upgrading the style of the factory wheel.

BIG BRAKE
AND JAGGED ROTORS

JAGGED PERFORMANCE BRAKE ROTORS

- ▶ High performance floating brake rotors designed to enhance braking performance and style of factory or aftermarket wheels
- ▶ 420 Stainless construction, drilled for optimum performance and heat dispersion
- ▶ 11.8" spoke mounted front rotors are designed to fit factory front 14-up FLT touring and other models equipped with spoke mounted 11.8" factory rotors
- ▶ 11.5" and 11.8" are universal and can be used on the front or rear of HD models equipped with 5-bolt hub mounted factory rotors
- ▶ Rear FLT rotors are also available and are one of the only proper thickness custom rear FLT rotors on the market (sold separately)
- ▶ Utilizes factory rotor hardware and sold individually

14" BIG BRAKE ROTOR KITS FOR 14-UP TOURING MODELS W/ SPOKE MOUNTED ROTORS

- ▶ 14" Big Brake rotor kits drastically improve braking performance as well upgrade the style of your factory front wheel
- ▶ Each 14" floating rotor is constructed from 420 stainless steel, and is drilled for optimum performance and heat dispersion
- ▶ Billet brake caliper adapters are included in each kit to properly relocate your factory caliper to the proper position
- ▶ Available in Standard or Jagged rotor styles
- ▶ Utilizes factory brake caliper, rotor hardware and brake hose. Easy bolt-on installation, no need to re-bleed the brake system
- ▶ Designed to fit 14-up FLT Touring models with factory wheels equipped with spoke mounted rotors
- ▶ Each kit includes 14" rotor, caliper adapter bracket and all necessary hardware (sold individually)

14" BIG BRAKE KIT, STANDARD

02-962	14-18 FLHR/FLHX/FLT models with factory cast wheel, Standard, LH	\$319.95
02-963	14-18 FLHR/FLHX/FLT models with factory cast wheel, Standard, RH	\$319.95

14" BIG BRAKE KIT, JAGGED

02-950	14-18 FLHR/FLHX/FLT models with factory cast wheel, Jagged, LH	\$299.95
02-951	14-18 FLHR/FLHX/FLT models with factory cast wheel, Jagged, RH	\$299.95

14" FLT

14" BIG BRAKE ROTOR KITS FOR 00-13 & 2018 "SPECIAL" TOURING MODELS, HUB MOUNTED ROTORS

- ▶ 14" Big Brake rotor kits drastically improve braking performance as well upgrade the style of your factory front wheel
- ▶ Each 14" floating rotor is constructed from 420 stainless steel, and is drilled for optimum performance and heat dispersion
- ▶ Billet brake caliper adapters are included in each kit to properly relocate your factory caliper to the proper position
- ▶ Utilizes factory brake caliper, rotor hardware and brake hose. Easy bolt-on installation, no need to re-bleed the brake system
- ▶ Designed to fit 2000-2013 & 2018 FLT Touring models with factory wheels equipped with standard hub mounted rotors
- ▶ Each kit includes 14" rotor, caliper adapter bracket and all necessary hardware (sold individually)

14" BIG BRAKE KIT

02-960	08-13 FLHR/FLHX/FLT models with 17" or larger front wheel & 2018 FLT "Special" models with hub mounted rotors, LH	\$319.95
02-961	08-13 FLHR/FLHX/FLT models with 17" or larger front wheel & 2018 FLT "Special" models with hub mounted rotors, RH	\$319.95
02-970	00-07 FLHR/FLHX/FLT models with 17" or larger front wheel, LH	\$319.95
02-971	00-07 FLHR/FLHX/FLT models with 17" or larger front wheel, RH	\$319.95

NOTE: Designed to work with 17" or larger front wheels with hub mounted rotors

14" FOR 00-13 FLT

15" BIG BRAKE ROTOR KITS, SPOKE MOUNTED ROTORS

- ▶ 15" Big Brake rotor kits drastically improve braking performance as well upgrade the style of your factory front wheel
- ▶ Each 15" floating rotor is constructed from 420 stainless steel, and is drilled for optimum performance and heat dispersion
- ▶ Available in Standard or Jagged rotor styles
- ▶ Utilizes factory brake caliper, rotor hardware and brake hose. Easy bolt-on installation, no need to re-bleed the brake system
- ▶ Designed to fit HD models with factory wheels equipped with spoke mounted rotors
- ▶ Each kit includes 15" rotor, caliper adapter bracket and all necessary hardware (sold individually)

15" BIG BRAKE KIT

02-991	Jagged 06-17 Dyna® models with spoke mount rotor, w/OEM cast wheel, LH	\$299.95
02-993	Jagged 06-17 Dyna® models with spoke mount rotor, w/OEM cast wheel, RH	\$299.95

15" DYNA®

NOTE: Designed for use with factory fork legs & calipers, will not work with Arlen Ness "Hot Leg" fork legs. *Does not fit FLD (Switchback) models. Will not work on 2018 Softail® models.

BRAKE CALIPERS

6-PISTON DIFFERENTIAL BORE CALIPERS

- ▶ 6-piston brake calipers CNC machined from billet aluminum
- ▶ Differential Bore
- ▶ Features caliper bodies that are engineered for form and function, 3D sculptured design helps facilitate cooling incurred while braking
- ▶ Extremely stiff under stress ensuring precise and consistent braking performance
- ▶ Cooling fins are machined into the inner caliper halves help disperse heat
- ▶ Compatible with ABS & non-ABS applications
- ▶ Available for 11.8" and 14" brake applications
- ▶ Each Caliper includes DP brake pads, bleeder screw, banjo bolt, sealing washers, mounting hardware and shim kit
- ▶ 11.8" Calipers can be adapted to Ness 15" rotor kits for Dyna/Softail

6-PISTON, 14"

ABS BEARINGS

Eliminate ABS malfunction & warning lights when using oversized wheels on HD models equipped with ABS brake systems.

- ▶ Each bearing is designed to work only on the specific application. Stock, 21", 23" or 26" front wheels
- ▶ Will work with most oversized 21", 23" and 26" front wheels
- ▶ Sold individually

	STOCK	21"	23"	26"	RETAIL
25MM	18-894	18-895	18-896	18-897	\$39.95

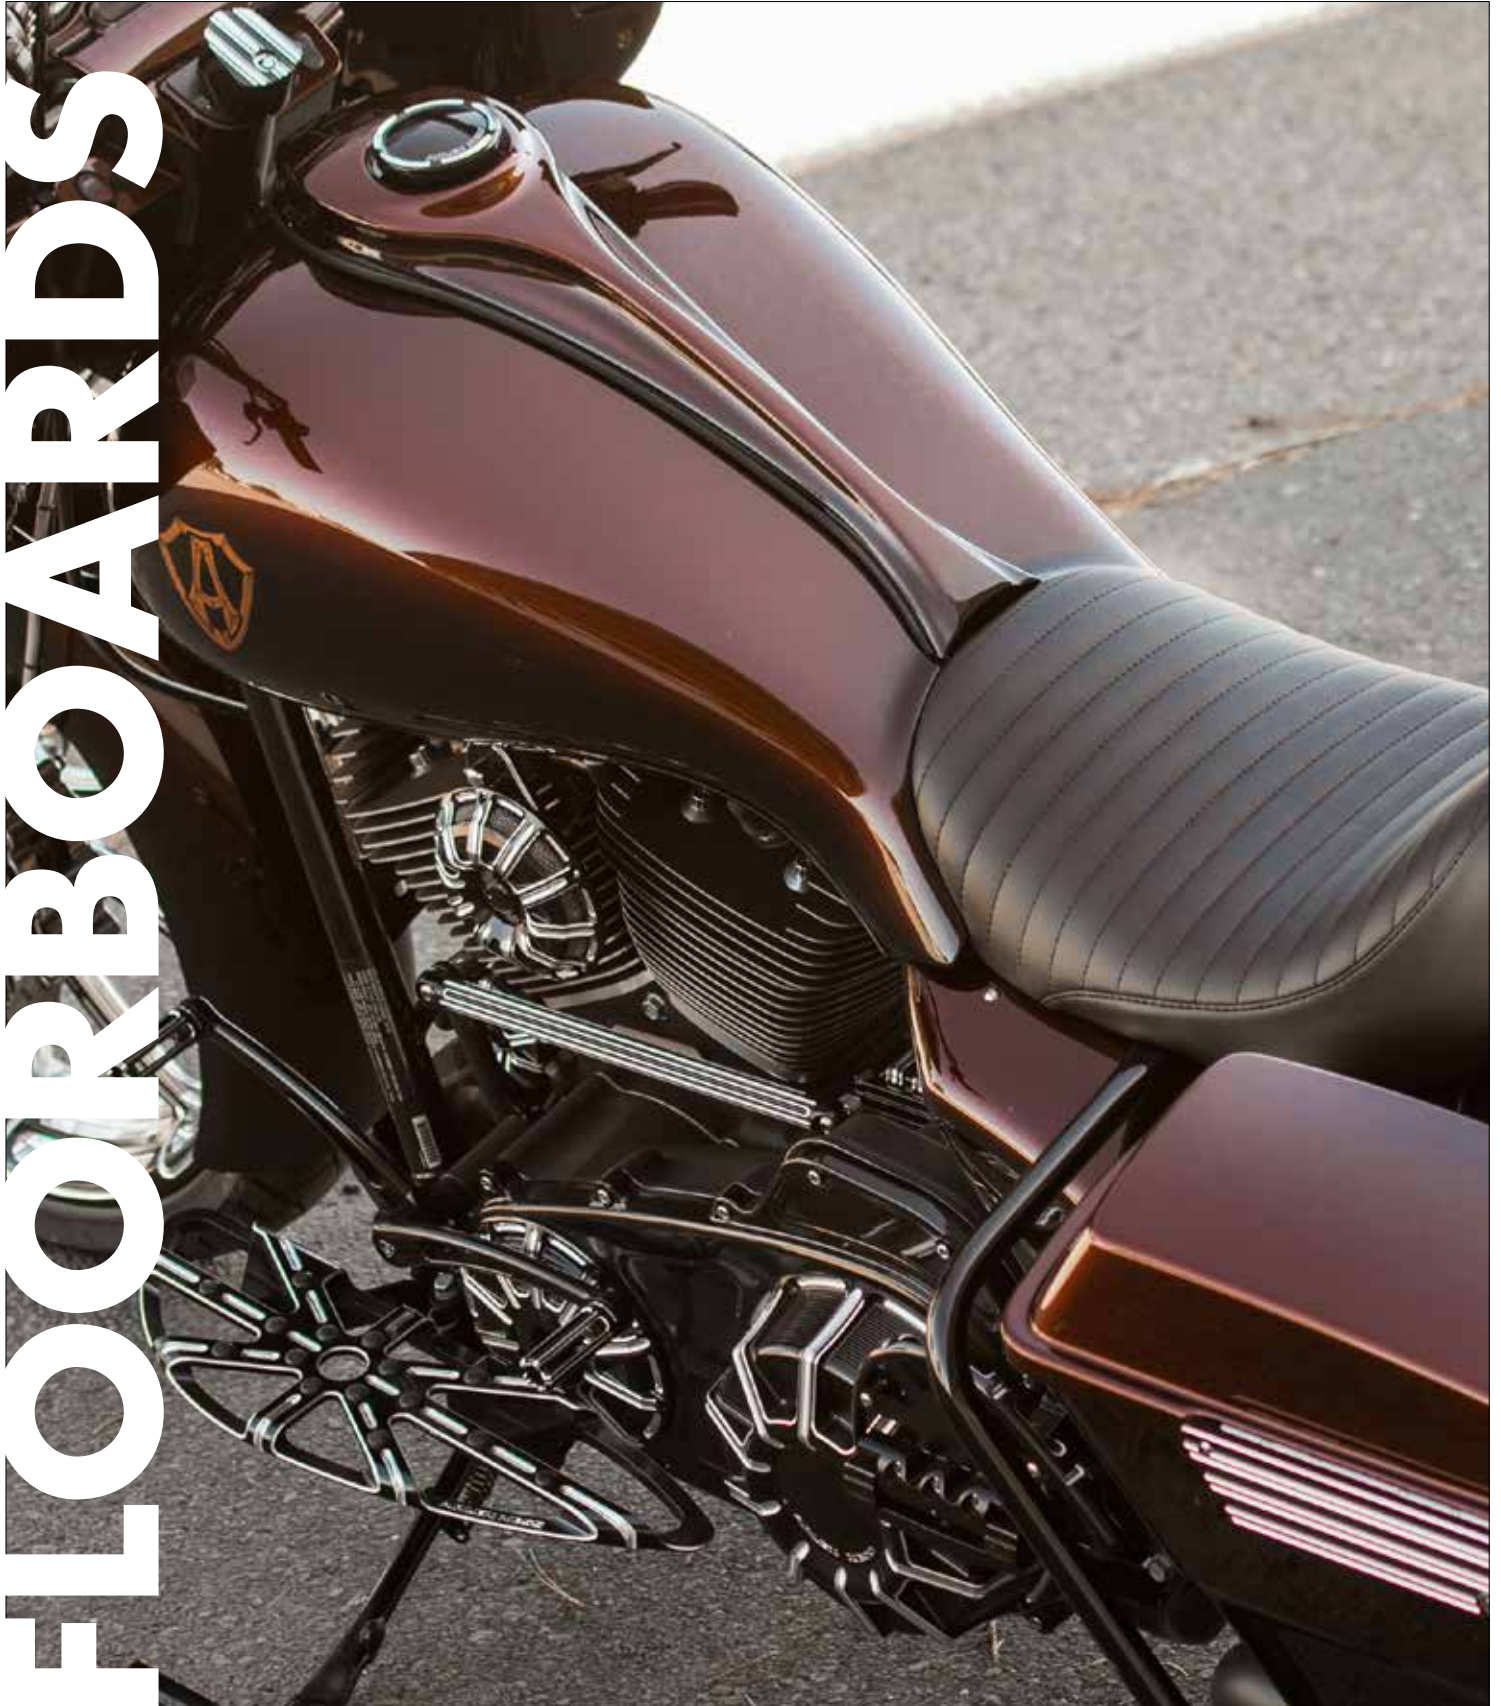

DRIVER FLOORBOARDS

We offer 3 different styles of floorboards that offer cutting edge style whether your bike is on the kickstand or on the throttle. From our Deep Cut extended length boards that offer timeless style and increased foot room to our Beveled series that feature knurled rubber for the aggressive rider in need of maximum foot traction; these boards will upgrade the look and feel of your machine.

PASSENGER PEGS & BOARDS

Each floorboard has matching passenger foot pegs and floorboards to allow you to keep your foot control style consistent and to offer you multiple options to keep your passenger comfortable .

FLOORBOARDS

DEEP CUT FLOORBOARDS

- ▶ CNC machined from forged billet aluminum
- ▶ Deep Cut design features aluminum accent cuts on both the top of the floorboard and sides for eye catching style at every angle
- ▶ Rubber inserts offer foot traction and protects the finish of the board
- ▶ Extended length for comfort
- ▶ Driver floorboards: 18"L x 5.75"W x 1"thick
- ▶ Passenger floorboards: 7"L x 4"W x 1"thick
- ▶ Choose from chrome or black anodize finish

FOOT & SHIFT PEGS

53

Although small, foot and shift pegs are an integral part of the motorcycle. They can have a significant impact on the style and feel of the motorcycle. With over 14 stylish and comfortable options available the Ness line of foot & shift pegs can accommodate riders of all types.

DEEP CUT & 10-GAUGE FOOT & SHIFT PEGS

- ▶ Deep Cut and 10-Gauge pegs are CNC machined from billet aluminum
- ▶ 10-Gauge pegs feature a lightweight aggressive design that adds style while reducing weight
- ▶ Deep Cut pegs feature a conical profile with smooth accent cuts for eye-catching style at every angle
- ▶ Matching grips, boards and more available
- ▶ Choose from chrome or black finish
- ▶ Hardware included
- ▶ Foot peg's are sold in pairs
- ▶ Shift pegs sold individually

METHOD RISERS

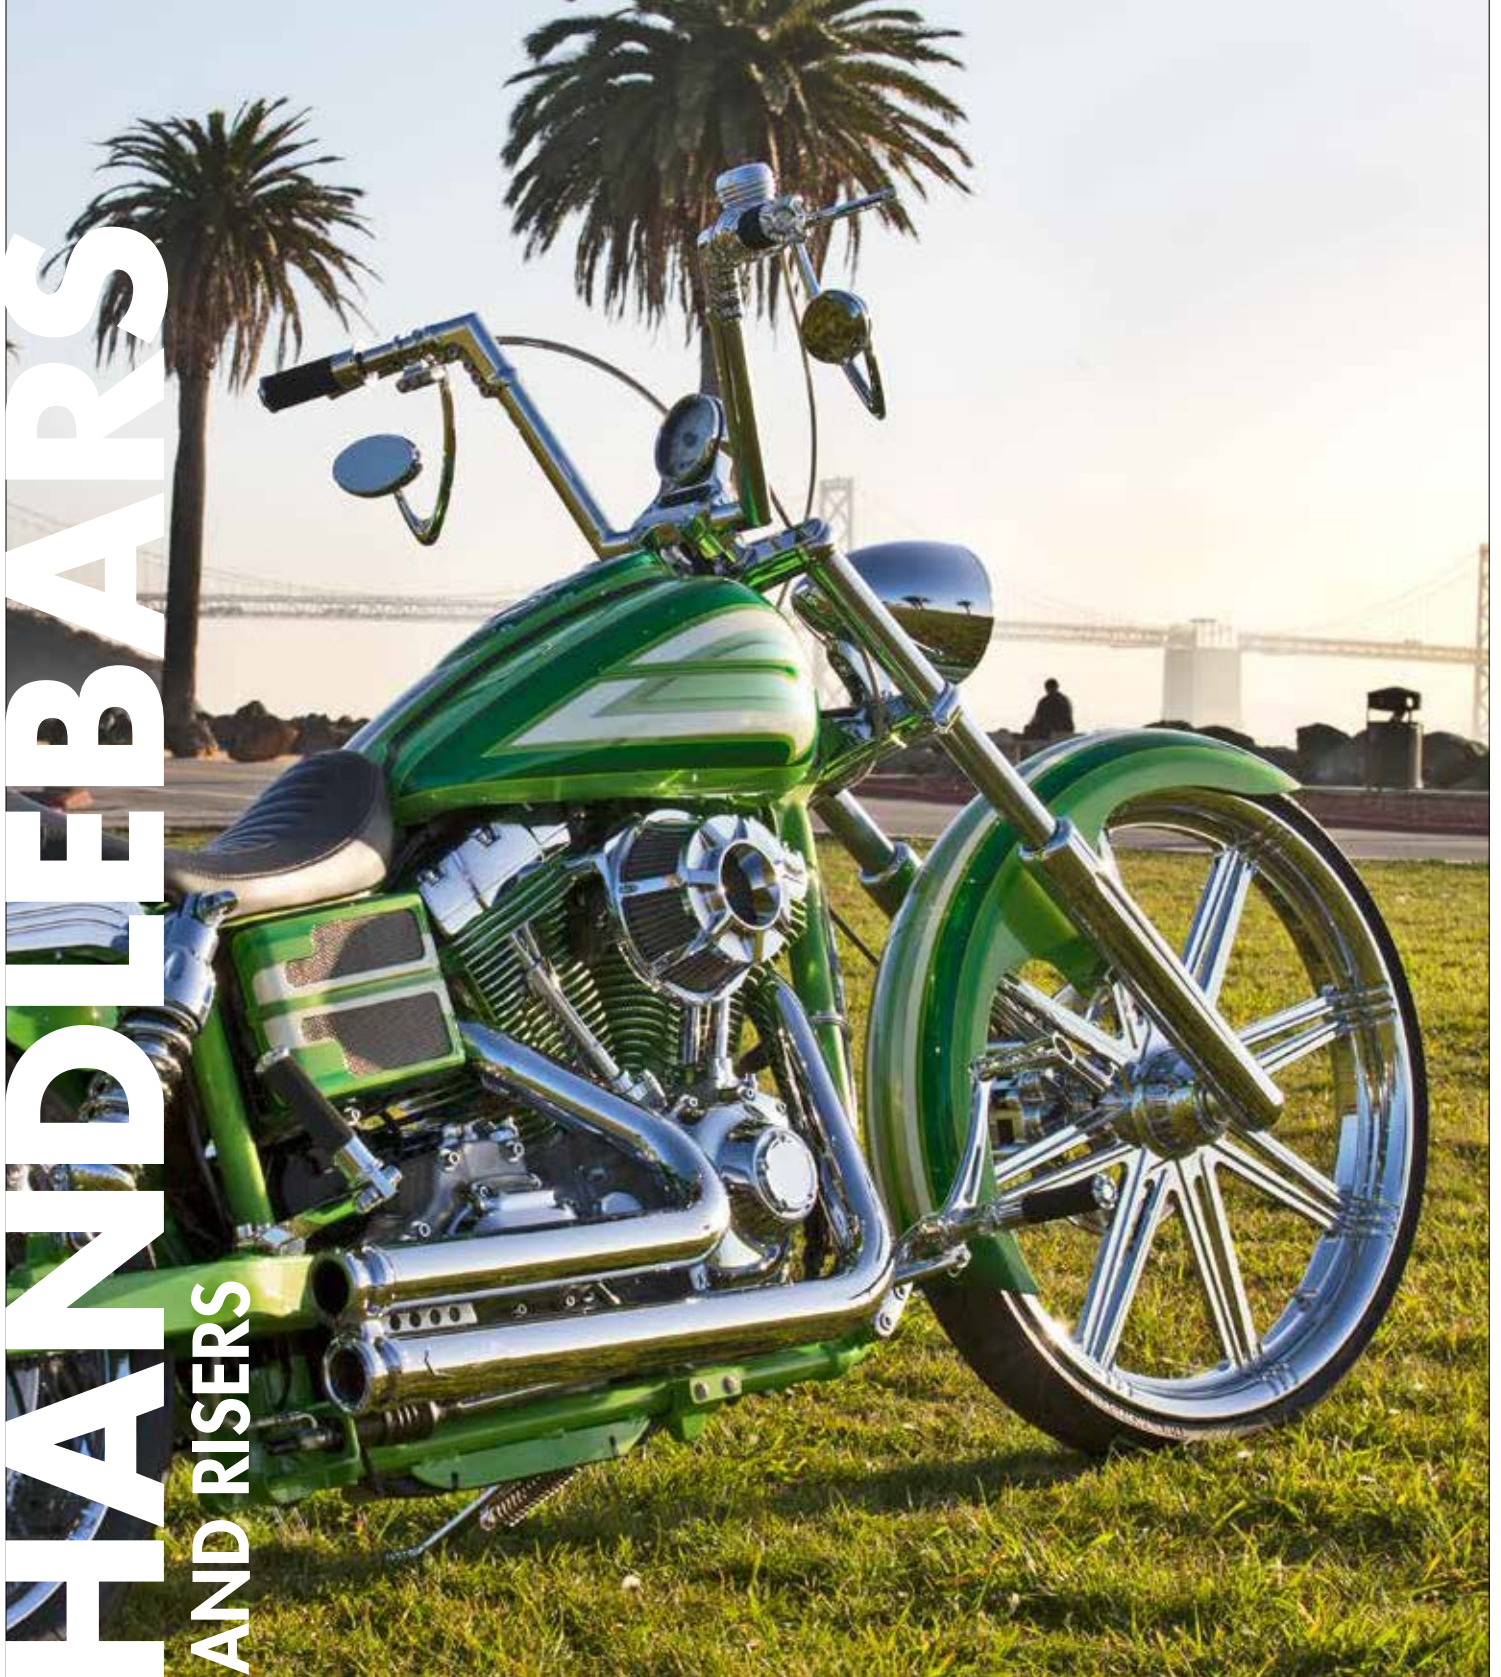

New for 2018, the Method Riser line is constructed from forged billet aluminum and features machined windows and accent pockets to add style while reducing weight. Available in 10", 6" and 2.5"

HANDLEBARS

Take control of your motorcycle without compromise. Our full line of adjustable handlebars and adjustable handlebar clamps allow you to adjust the bar to your specific riding style.

HANDLEBAR DAMPENING KIT

Eliminate handlebar flex with the industry standard. Arlen Ness's proprietary polyurethane bushing kits add a more positive and rigid feel to the handlebar while isolating vibration.

HANDLEBARS

AND RISERS

METHOD RISERS

- ▶ CNC machined from forged billet aluminum for reduced weight and maximum strength
- ▶ Clean yet aggressive styling featuring machined windows and sculptured pockets
- ▶ CNC machined recess on bottom of riser eliminates the need for top cup washer on handlebar dampner kit for a cleaner look and more positive feel.
- ▶ 1" clamping area
- ▶ Additional billet spacers and hardware is included with each riser kit to give the option to accept factory gauge mounts with 4.25" mounting hole
- ▶ Available in 10", 6" or 2.5" heights

10" RISERS

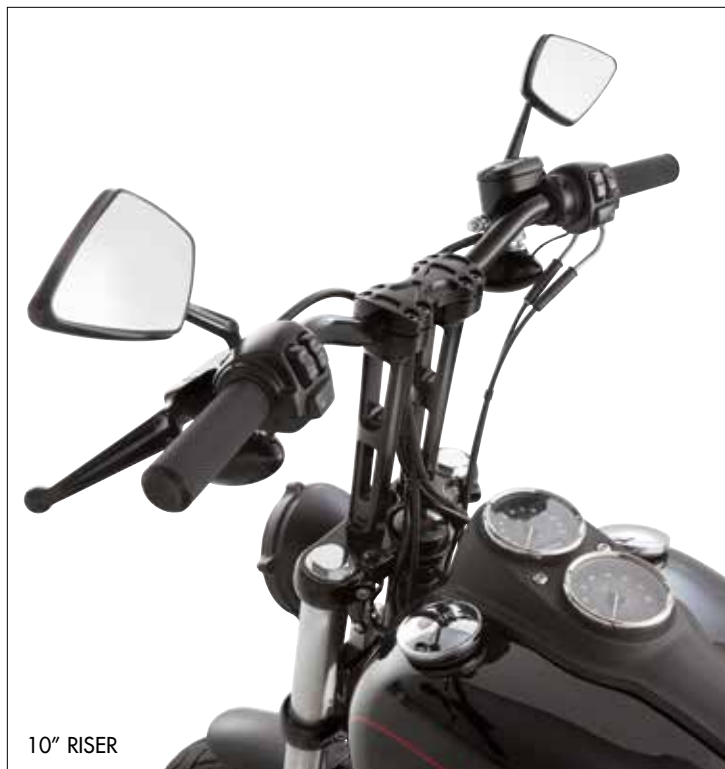

08-060	10" Method Riser, black	\$299.95
08-061	10" Method Riser, chrome	\$299.95

6" RISERS

08-062	6" Method Riser, black	\$299.95
08-063	6" Method Riser, chrome	\$299.95

2.5" RISERS

08-064	2.5" Method Riser, black	\$299.95
08-065	2.5" Method Riser, chrome	\$299.95

HANDLEBAR DAMPENING KITS

- ▶ A must when changing to aftermarket handlebars or risers
- ▶ Proprietary polyurethane bushings add a more positive and rigid feel to the handlebar
- ▶ Eliminates flex and isolates vibration
- ▶ Heavy duty cup washers will not bend or distort like factory units
- ▶ Each kit includes polyurethane bushings, inner steel sleeves, and heavy duty chrome cup washers

08-029	Dampening kit for 84-18 FLT	\$29.95
08-005	Dampening kit for 73-17 Softail/ Dyna/FXR & 73-18 XL	\$29.95

NOTE: Will not fit 04-10 XL, Springer models & 2018 Softail

DAMPENING KIT FOR
BAGGER MODELS

FLUSH MOUNT HANDLEBAR DAMPENING KIT

- ▶ Cup washers in our flush mount kit are machined from 303 stainless steel then polished to a chrome-like finish
- ▶ Proprietary polyurethane bushings add a more rigid feel
- ▶ Each kit includes lower flush mount cup washers, heavy duty top chrome cup washers, inner steel sleeves, polyurethane bushings and chrome hardware

08-004	Flush mount kit, fine thread	\$49.95
08-002	Flush mount kit, coarse thread	\$49.95

FLUSH MOUNT DAMPENING KIT

MODULAR HANDLEBARS

- ▶ Design, function and adjustability
- ▶ Our innovative 1-1/4" steel handlebars feature billet aluminum junction clamps that rotate towards or away from the rider for their desired comfort needs.
- ▶ All bars are drilled and slotted for internal wiring for cable or FBW applications
- ▶ Drag bars bolt-on directly to 3-1/2" bolt centers for most all H-D models (except Bagger and Springer models)
- ▶ Bagger Apes and Mini Apes include 3-1/2" on center knurling to fit most H-D application
- ▶ Available in chrome and black for most H-D models

13" & 16" MODULAR BAGGER APES FOR STREET GLIDE MODELS

- ▶ Designed to fit 08-18 Street Glide & Ultra FLHT/FLHX
- ▶ Perfectly wraps around the batwing touring fairing

CHROME

For well over a decade the Big Sucker™ has been the best performing and best selling air cleaner on the market period! The Big Sucker™ is engineered to give you maximum airflow, which means more horsepower, more torque and better gas mileage. Dyno testing has shown up to a 21% gain in HP from simply installing the Big Sucker™ air cleaner to your engine. 2018 brings several additions to the already stacked lineup. U.S. Patent #6,374,815

BIG SUCKER

AIR CLEANER KITS

BIG SUCKER™ STAGE I AIR CLEANER KITS

- ▶ Engineered and proven to give your engine maximum airflow for more horsepower & torque
- ▶ One-piece aluminum backing plate features our patented hidden breather technology, each breather is o-ringed at the heads and exits at the mouth of the throttle body eliminating the need for any external hoses or hardware for efficient engine breathing
- ▶ Each backing plate contains a smooth radius air inlet to direct unobstructed airflow into the engine
- ▶ Stage 1 kits accept factory and/or Ness air cleaner covers for the exposed look. Kits specifically designed to accept factory air cleaner cover only [found on pg. 82](#)
- ▶ Performance air filters are available in standard pre-oiled cotton & synthetic filter elements
- ▶ Standard performance filters are constructed from red pre-oiled cotton and are washable/re-useable, filter re-charge kits available separately
- ▶ Synthetic performance filters are constructed from black synthetic filter element that is wrapped in a stainless steel jacket. Synthetic filters are washable/re-usable, do not require oil and are water resistant which in most cases eliminates the need for a rain sock
- ▶ Backing plates available in standard, black or chrome finish
- ▶ Each Stage 1 kit includes one-piece aluminum backing plate, performance filter, gaskets, and necessary hardware

BIG SUCKER STAGE 1 AIR CLEANER KIT FOR M8 ENGINES

- ▶ The all new Big Sucker™ Stage 1 air cleaner for Milwaukee-Eight™ engines adds new & improved features to our original industry leading intake
- ▶ In addition to our patented hidden breather backing plate technology, we have added an outer lip which wraps around the filter base resulting in a clean look while better securing and protecting the filter
- ▶ Smooth radius air inlet for unobstructed air flow
- ▶ The new aluminum filter top plate has integrated filter mounting studs for increased durability while eliminating the need for additional filter mounting hardware and a steel filter plate
- ▶ High performance filters are made from black pre-oiled cotton for the best in airflow and filtration. Filter are washable and re-usable; filter re-charge kits are available separately
- ▶ Designed to accept Ness custom covers for exposed look & factory air cleaner covers if noted, kits for M8 touring models specifically designed for factory cover are [found on page 82](#)
- ▶ Backing plates available in standard, black or chrome finish
- ▶ Each M8 Big Sucker™ Stage 1 kit includes one-piece backing plate, performance filter, filter top, gaskets, and necessary hardware

BIG SUCKER™ FOR MILWAUKEE-EIGHT™ FLT, FACTORY COVER

- ▶ New and improved Stage 1 design for 17-up touring models for use with factory air cleaner cover
- ▶ In addition to our patented hidden breather backing plate technology, we reshaped the backing plate to match the factory cover and added an outer lip that wraps around the filter base resulting in a clean look while better securing the filter
- ▶ The new aluminum filter top plate has integrated filter mounting studs and directional air venturi for increased durability and performance.
- ▶ The top plate eliminates the need for additional filter mounting hardware and a steel filter plate
- ▶ Performance filter is constructed from red pre-oiled surgical grade cotton and is washable/re-usable
- ▶ Our filter offers over 200% more surface area than the factory filter and features a tapered bottom resulting in more filter surface area than any other performance intake option designed for the 17-up FLT factory cover
- ▶ Backing plates available in standard, gloss black or chrome finish
- ▶ Each kit includes one-piece backing plate, performance filter, filter top plate, gaskets and necessary hardware

BIG SUCKER™ & DERBY SUCKER FILTERS FOR SCREAMING EAGLE® AIR CLEANER KITS

- ▶ Big Sucker air filters for Screaming Eagle air cleaner kits to increase air flow, ability to add custom covers or add the water resistant synthetic feature
- ▶ Available in standard red, synthetic or derby sucker filter elements
- ▶ Standard performance filters are constructed from red pre-oiled cotton and are washable/re-useable
- ▶ Synthetic performance filters are constructed from black synthetic filter element that is wrapped in a stainless steel jacket. Synthetic filters are washable/re-usable, do not require oil and are water resistant which in most cases eliminates the need for a rain sock (recommended for exposed air cleaner configurations)
- ▶ Derby Sucker filters accept any 5-hole derby cover as an air cleaner cover and are almost 20% larger than Stage 1 filters for more airflow. Available in both standard and synthetic filter elements

The Monster Sucker combines 90° design with all the performance gaining features of our industry leading Big Sucker™ for serious gains in performance and style. Whether you want to stand out from the crowd with our CNC forged billet cover kits or just big performance gains without the extra billet, the Monster Sucker has you covered.

MONSTER SUCKER

SHOWN WITH 10-GAUGE STYLE

“MONSTER SUCKER” 90° AIR CLEANER KIT

- ▶ Our Monster Sucker 90° air cleaner kit features our patented Big Sucker™ “hidden breather” technology and more filter surface area than any other aftermarket 90° on the market for maximum performance
- ▶ Ness hidden breathers are o-ringed at the heads and exist out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- ▶ The inverted 90° style filter features a built in inverted top to pull in air not only from all sides of the filter but also the front, which results more performance gaining airflow
- ▶ Each filter is constructed from a synthetic material that is water resistant, which in most cases eliminates the need for a rain sock. Filters are re-usable and do not require oil, just wash and re-use
- ▶ Kits for models w/ Milwaukee-Eight™ engine include throttle servo cover
- ▶ Covers are forged from billet aluminum then CNC machined to perfection
- ▶ Kits are available with or without forged billet covers
- ▶ Forged billet covers can be added at any time to any Standard Monster Sucker kits that were originally purchased without covers
- ▶ Each kit includes backing plate, 90 elbow, filter, filter cover (if cover kit is chosen), gaskets and necessary hardware

INVERTED SERIES

The Inverted Series air cleaner combine the patented Big Sucker™ technology and an inverted filter top that maximizes airflow by pulling in air from the face of the air cleaner, as well as the traditional method of pulling air from the sides. Each kit is machined entirely from forged billet aluminum to provide the best in performance and style.

INVERTED SERIES AIR CLEANER KITS

The Inverted Series air cleaner combines the patented Big Sucker™ technology and an inverted filter top that maximizes airflow by pulling in air from the face of the air cleaner, as well as the traditional method of pulling air from the sides. Each kit is machined entirely from forged billet aluminum to provide the best in performance and style.

FORGED BILLET ALUMINUM BACKING PLATE

- ▶ Constructed from forged billet aluminum
- ▶ Features the patented Big Sucker™ hidden breather technology.
- ▶ Each hidden breather is o-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing and a virtually closed loop system. This eliminates the need for any external hoses or hardware
- ▶ Radius air inlet increases performance by providing unobstructed airflow
- ▶ Aluminum breather hardware includes specially designed breather bolts and covers for clean mounting

HIGH PERFORMANCE SYNTHETIC FILTER

- ▶ Inverted Series Filters are made in the USA
- ▶ Features synthetic material that never needs oil, just wash and re-use for long lasting performance
- ▶ Synthetic filters are water resistant eliminating the need for a rain sock.
- ▶ Each filter features an inverted pleated top with pleated sides to maximize airflow by pulling air in from every angle
- ▶ Synthetic material is black with a stainless steel jacket

FORGED BILLET ALUMINUM AIR FILTER HOUSINGS

- ▶ Machined from a single piece of forged billet aluminum for clean style, reduced weight, and improved ergonomics
- ▶ Features built in velocity stack that not only gives a unique look, but also increases performance by forcing air into the filter's inverted pleated top
- ▶ Offered in 4 styles: Slot Track, Deep Cut, Beveled, and 10-Gauge
- ▶ Available in a chrome or black anodize finish

"METHOD" CLEAR SERIES AIR

WINDOW

Clear Polycarbonate Window- The clear polycarbonate window allows you to view the inner workings of your throttle body and provides a clean look to the heart of your engine

FILTER

Performance Air Filter- Performance filters constructed from black pre-oiled cotton for the best in filtration and maximum airflow. These filters are washable/reusable for a lifetime of use

BACKING PLATE

Forged Backing Plate & Filter Housing- Both the backing plate and filter housing are forged from billet aluminum and then CNC machined to perfection. The backing plate features our hidden breather backing plate technology and a smooth radius air inlet for optimum performance

“METHOD” CLEAR SERIES AIR CLEANER

- ▶ Forged billet aluminum air cleaner featuring a polycarbonate window allowing you to view the internal working of your air intake system
- ▶ Forged billet aluminum backing plate with our patented internal hidden breather backing plate technology eliminating the need for external hoses or hardware for a virtually closed loop system
- ▶ Polycarbonate window is coated with proprietary films that prevents oil adhesion, yellowing, or marring from engine oil or UV exposure. This maintains window clarity for a clear view of your engine’s internals
- ▶ Radius air inlet provides unobstructed airflow into engine
- ▶ High performance filter is constructed from black pre-oiled cotton for optimum flow and filtration. Filter is washable & re-usable, recharge kits available separately
- ▶ Available in chrome, black anodize with contrast and all black anodize finish
- ▶ Each kit includes backing plate, forged filter housing, clear polycarbonate top, filter, gaskets and necessary hardware (Patent Pending)

GAS CAPS

- ▶ Arlen Ness was one of the first to manufacture billet gas caps in the industry
- ▶ Each gas cap top is CNC machined from billet aluminum
- ▶ Exclusive ratchet design provides proper torque and design alignment
- ▶ Available in vented, non-vented, and dummy w/ LED fuel gauge applications
- ▶ Dummy and LED fuel light caps fit tanks originally equipped with fuel gauges
- ▶ LED caps are user-programmable to light LED at any pre-set fuel level to help ensure you don't run out of gas
- ▶ All gas caps sold individually

OIL COVERS AND ACCESSORIES

RE-USABLE BILLET OIL FILTER
OIL FILTER COVERS
DIP STICK
OIL PRESSURE GAUGE KIT

RE-USABLE BILLET OIL FILTERS

- ▶ Arlen Ness combines clean sculpted billet styling with high tech filter technology used in Formula 1, NASCAR, and the aerospace industry
- ▶ Oil filter element is made from laser cut 304 stainless steel and medical grade micron cloth
- ▶ Catches items down to 35 microns, which is about three times better than most traditional oil filters
- ▶ Filters maintain consistent flow under all conditions, including extreme heat, presence of water, and cold startups. Where as most paper filters can flow so poorly that they often cause the bypass valve to open and allow unfiltered oil into your engine
- ▶ Simple filter cleaning and service
- ▶ Available in Beveled and Deep Cut styles
- ▶ Choose from chrome or black anodize finish
- ▶ Fits Twin Cam and M8 models

COMPLETE KIT

SLOT TRACK

1" BILLET BULLETS

Detailed CNC machined 1" billet housings that hold a cluster of high power LED lights. These accessory lights are small enough to blend in with your bike's profile, detailed enough to up your style, and powerful enough to be seen

DIRECT BOLT-ON POWER LED'S

Just like the name, these accessory lights are engineered to bolt on straight to your factory turn signal mounts. Each housing is designed to flow with the lines of the motorcycle for a clean and minimalistic look

DEEP CUT ACCESSORY LIGHTS

Factory sized billet housings CNC machined with Deep Cut accents. These LED turn signals are available in single or dual filament and feature our Fire Ring LED turn signal rings

2" SPEEDING BULLETS

Timeless Ness design offered in two different lighting configurations: LED or Halogen. These lights work with classic or modern styled machined and can work with either single or dual filament applications

ACCESSORY LIGHTS

DIRECT BOLT-ON ACCESSORY LIGHTS w/ POWER LED

- ▶ These are some of the cleanest and brightest direct bolt-on accessory lights you will ever find for your ride. No spacers or adapters necessary
- ▶ Our compact billet design flow nicely into your forks or fender struts to make them almost invisible. These lights contain two Power LEDs that are equivalent to 25 traditional LEDs. The light produced from the Power LEDs is incredible.
- ▶ These lights are sold in pairs in chrome or black anodize.

TERMS & CONDITIONS

- > **DEALERS:** We sell only to motorcycle businesses (licensed, established, commercial places of business serving the public in the areas of motorcycle sales, service and/or parts and accessories). We reserve the right to refuse to sell to any account not meeting our requirements.
- > **DEALER PRICING ADVERTISING AGREEMENT:** Any dealer, distributor or retailer of any Arlen Ness product (s) agrees that in no instance may the Arlen Ness logo, name, similar marking or any material subject to copyright protection be used in or be associated with any advertisement that mentions, suggests or in some form is linked to a discount of more than 10% of the suggested retail price published by Arlen Ness Enterprises, Inc. is prohibited. Failure to comply with this policy will result in Arlen Ness Enterprises, Inc. terminating the agreement between Arlen Ness Enterprises, Inc. and the party involved.
- > **INTERNATIONAL ORDERS:** International orders are directed to our Network of Distributors located around the globe. Our Distributor will then recommend an agent in your area. If there is not an agent in your area, you may order from us directly.
- > **BACK ORDERS:** Every effort is made to keep all items in - stock at all times, however, occasionally certain products may be back ordered. Arlen Ness Enterprises, Inc. will call when the item becomes available to confirm it is still required before shipping.
- > **PRICING:** We reserve the right to change prices, policies, or terms at any time without notice.
- > **TERMS:** Retail orders will only be taken if paid for by credit card. Dealers will pay for orders by their agreed terms on dealer application.
- > **FREIGHT:** Shipping charges are only an estimate. Final shipping charges may change without notice.
- > **RETURNED CHECKS AND REFUSED SHIPMENTS:** All returned checks and refused shipments will result in a \$25.00 processing charge.
- > **MERCHANDISE RETURNS:** A Return Goods Authorization (RGA) is required for all items. Call to request an RGA number. No freight or restocking fee will be charged on returned goods found to be defective or not as ordered; returns for any other reason will be charged a 20% restocking fee. All returns must be shipped back with all components of the original part included; failure to do so will result in the part being shipped back to the customer at the customer's expense. All sales are final on discontinued and closeout items. All returns are subject to inspection for determination of credit. Mark RGA the number prominently on the outside of the package and send freight prepaid to: Arlen Ness Enterprises, Inc. | 6050 Dublin Blvd. | Dublin, CA 94568 Returns received without the correct RGA will be returned to the customer at their expense. All Retail returns will receive a replacement item or company credit.
- > **CATALOG REQUESTS:** We believe the contents and specifications of this catalog are correct. We assume no liability for any errors in listings, specifications, part numbers, prices or model applications. We reserve the right to change specifications, product descriptions, product quality, pricing and application at any time without further notice and without further obligation. The reproduction of any material from this catalog is forbidden without our written approval.
- > **IMPORTANT:** Arlen Ness Enterprises, Inc. is in no way, shape or form connected with Harley-Davidson® Motor Company. Any products with a trademark, name, word, O.E.M. number used in the catalog by Arlen Ness Enterprises is strictly intended to be used solely as a reference only to usage to that particular part. None of the parts and accessories are D.O.T. approved. All of our parts are for custom applications. We have total confidence in our product, and strongly suggest test fitting all parts prior to any modifications or painting. Arlen Ness Enterprises, Inc. will not be held responsible for any paint or labor cost under any circumstances and will not accept returns on any part that has been modified or damaged due to improper installation.
- > **LIMITED WARRANTY:**
 - > **Improper Care or Misuse:** Arlen Ness Enterprises shall have no warranty obligation in the event the goods have been modified by any other person or organization, or where the goods become defective in whole or in part as a result of improper installation, improper maintenance, improper use, abnormal operation or any other misuse or mistreatment of the goods.
 - > **Proof of Purchase:** Arlen Ness Enterprises, Inc. shall have no warranty obligation in the event the customer is unable to present a receipt evidencing the date on which the customer purchased the goods.
 - > **Exhausts:** Exhaust systems are warranted for manufacturing defects only; however, there is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, exhaust timing, carburetor jetting, overheating, etc. and is not caused by defective manufacturing.
 - > **Chrome Plating:** If, after initial inspection a flaw is discovered in the chrome, do not install. Please call Arlen Ness Enterprises, Inc. for an RGA and we will replace these items at no charge. If chrome fails after installation during our 1-year warranty period, items will be re-chromed at our expense and then returned. Please use caution when installing chrome-plated items, as the finish is fragile. Always use anti-seize when using chrome hardware on chrome plated products. Arlen Ness recommends using a quality wax or polish on chrome pieces to protect their finish.
 - > **Engine Warranty:** All engines purchased from Arlen Ness Enterprises, Inc. will be warranted per the manufacturer warranty. If in the event that an engine has been assembled by Arlen Ness, they will have a warranty period of six months. Chrome parts will still carry our 1-year limited warranty.
 - > **Consequential Damages:** Arlen Ness Enterprises, Inc. shall not be liable for any consequential or incidental damages arising from the breach of any warranties, the failure to deliver, delay in delivery, delivery in non-conforming condition, or for any other breach of contract or duty between Arlen Ness Enterprises, Inc. and the customer.
 - > **Chrome Wheel Warranty - 1 Year Unconditional Warranty:** The chrome finish on your Arlen Ness wheel is of the highest quality, and to ensure its longevity it must be maintained properly. Salt, sand and humidity are bad for chrome. If you ride the motorcycle in these conditions and do not clean and dry your chrome wheels properly, the life of the chrome will be shortened. Do not use any abrasive cleaners or waxes. Arlen Ness reserves the right to determine if the wheel has been maintained properly and been abused. You may return the wheel to Arlen Ness within one year of the invoice date and if upon inspection it is found to be defective, we will replace it or at our option repair it.
 - > **Black Anodize Wheel Warranty - 1 Year Unconditional Warranty:** The black anodize finish on your Arlen Ness wheel is of the highest quality, and to ensure its longevity it be maintained properly. Exposure to UV rays is bad for black anodize. Do not use any abrasive cleaners or waxes. Arlen Ness reserves the right to determine if the product has been maintained properly, and not been abused. If your Arlen Ness black anodize wheel has been maintained properly and not abused, you may return it to Arlen Ness within one year of the invoice date and if upon inspection it is found to be defective, we will replace it or at our option, repair it.
